

LIVING

DESIGN BY ANDREAS DIMITRIADIS
& PHOENIX DESIGN

Andreas Dimitriadis takes ceramic feasibility to its limits. The designer lives the DNA of each project and creates a stylised rhythm that finally unfolds in its finest form in LIVING. Extremely flat elements with their flat surfaces and defined edges literally float in front of the wall bearing witness to an unparalleled fusion of elegance and bathroom culture. Large areas are cleverly hidden behind narrow silhouettes defining a functional wash place as the centre of the bathroom.

URBAN AND MODERNISTIC

A system with corners and edges yet so flexible and easy to maintain: LIVING has a clear concept and clear forms. The modular system offers washbasins with and without shelves in many widths. Reduction and individualism without peculiarity: LIVING's formal language is aimed at people who love a contemporary setting and design their surroundings with sensitivity and great sense for materials.

LIVING

LIVING cutable washbasin

LIVING washbasins can be cut and trimmed to almost any size: right, left at both ends. Thanks to precise adaptation technology, they can be cut to the desired dimension to the exact millimetre in our factory according to customer specifications. This results in tailor-made solutions that can be effortlessly integrated into niches and corner situations.
