

# HOODS

## RENOVA PURE AIR. Excellent air quality.

The new Renova Pure Air range guarantees air quality in your home. It goes beyond providing clean air with its advanced odour filtration system; it ensures that the air is free from harmful substances produced by pollution or generated within your own home.

### A revolutionary concept of recirculating hoods for your home

### No odours

Its triple filtration system eliminates even the strongest and most persistent kitchen odours with a remarkable 98% efficiency, surpassing the effectiveness of traditional carbon filters or regenerative carbon filters.

### Efficiency

## Free from harmful substances

Our hoods eliminate 100% of harmful particles generated by cleaning products, dust mites, dust, allergens like pollen or those caused by pets, ensuring clean and substance-free air.

VIRUS & BACTERIAS

POLLEN

PET DANDER

DUST

CHEMICAL  
POLLUTANTS VOC

DUST MITES

SMOKE

## Maintenance is a breeze

The new Renova Pure Air hoods feature a self-cleaning system, eliminating the need to switch out the carbon filters or replace the costly ceramic filters every 3 years.

This also saves having to wash the carbon filters every 2 months, so there is absolutely nothing you need to do to keep the filters as good as new.

## No energy loss

All the energy used for heating or cooling stays within your home. The purified air circulates back to the kitchen, eliminating losses through external ducts to maintain a pleasant temperature year-round. According to a study by the Federal Institute for Research on Building, Urban Affairs and Spatial Development (BBSR, by its German initials), using an externally vented hood for just 30 minutes a day in a cold climate can result in an estimated energy loss of 500 kW.

## Installation is hassle-free

Design your new kitchen freely, as no external duct or vent is required. Simply plug in the hood to an electrical outlet. By installing a hood in recirculation mode, you can reduce noise and avoid extraction capacity loss due to improper installation or lengthy ducts leading outside.

## Enjoy peace of mind

With the Renova Air function, your home's air is purified for 10 minutes every hour, ensuring excellent air quality.

## Cleaning and filter replacement costs are minimal based on 60 minutes of daily use over 10 years

Enjoy cooking without worrying about smoke or smells !

## Connectivity

For the end user comfort and security CATA offers two types of connectivity between hob and hood:

### AUTO connectivity

The hob automatically controls the hood adjusting its suction power to the cooking needs of each moment. Available in the RENOVA AIR range, TENTA with hob INSB 6032 BK/A and INSB 6030 WH.

### AUTO 2 connectivity

The AUTO2 cooktop automatically controls the AUTO2 hood by adjusting its suction power to the cooking needs of the moment. Available on models ISLA BENNU SLIM /B and THALASSA PRO range with cooktops INSB 6028BK /A, IB 6403 E2 BK and IB 6324 E2 BK.

## Warm and White Natural Lighting

New high-efficiency **two-color** LED STRIPS with the possibility of switching between warm light (2700K) or natural white (4000K) adjustable in intensity to perfectly adapt to the kitchen environment.

## Maximum energy efficiency in the market with latest generation BRUSHLESS

the BRUSHLESS A+++ motors offer up to 90% less energy consumption while providing high extraction capacity (842 m³/h), offering a quieter and more durable solution.

**A+++**

## Build-in TENTA

An integrated white glass hood with the **control on the front visor** to be more functional. It has a wide coverage of the cooking area and total protection of the cabinet and it also includes **AUTO** connectivity with the hob and **two-tone** warm / natural lighting.

## Ceiling hood BENNU SLIM ISLAND A+

A fully flush-mounted hood to fit into the narrowest false ceilings from **17cm**. With **AUTO2** connectivity to forget about the remote control and start cooking. It has warm / natural **bi-color lighting** to match the rest of the ceiling lighting.

## THALASSA PRO A+++

The verticals flagship model is updated with all the best features on the market such as the **842m³/h** BT4DC motor and class **A+++**, the **AUTO** connectivity with the hob, **two-tone** warm / natural adjustable in intensity, pneumatic opening, a collection area for condensation from the filters, easy installation with horizontal leveling.

**Air purification function.** The hood will work automatically for 10 minutes every hour renewing the air in your kitchen.

**Renova turbo function.** Fast air renewal with 5 minutes interval at MAX speed, and progressively reducing the speed for when you need to quickly and efficiently get rid of bad odors. Available on Thalassa Pro and Thalassa models.

## Compact telescopes with universal installation

New range of modern compact **14cm high telescopic built-in hoods** with high efficiency LED STRIPS to choose from the high performance of the **TFH 6830** to the **795m³/h** and **TFH 6630** of **605m³/h** to the **TFH 6430** of **391m³/h**. All of them with **multiple universal and replaceable front installation** options to facilitate replacement and fit in any kitchen.

**Multiple installation possibilities in a single hood with Universal fixings for replacement**

**Top shelf fixing**

**Lateral Fixation**

**Rear Fixation**

## Recommendations:

Choose a hood that has a flow rate that can renew the kitchen air between 6 and 10 times per hour (between 12 and 15 times in recirculation).

Use the cooking areas closest to the wall and avoid air stream during cooking.

Always connect the hood 5 minutes before starting to cook.

Try to keep the boiling pans covered to improve the performance of the hob and produce less steam.

Once cooking is finished, keep the hood running for a minimum of 5 to 15 minutes depending on the intensity of the smoke and odors generated. It is highly recommended to choose a hood with the automatic disconnect timer function to do it directly.

Keep metal filters in good condition with regular cleaning of them. It is highly recommended to choose a hood with filter cleaning indicator so it is not forgotten.

### DECORATIVES

**VNV90 XGBK**  
Cod. **02159420** EAN **8422248343077**

- **Recirculation hood with integrated air purifier.** Eliminates odors with an efficiency of 98% and purifies 100% of dust, bacteria, viruses and volatile organic compounds.
- Touch Control Panel with digital display, automatic shut-down timer and cleaning filters indicator.
- 6 extraction levels, 5 + **1 TURBO**
- Motor maximum airflow free outlet: 1400m<sup>3</sup>/h
- **Air purification function**
- Brushless motor. Sound power: **46dB(A)**, maximum: 64dB(A)
- High-efficiency lighting by intensity-adjustable two-tone warm / natural LED STRIP
- **AUTO connectivity with automatic control from the CATA AUTO hob**
- **Maintenance-free self-regeneratable carbon filter**
- **Non-condensation filter and Filter condensation collection area**
- Easy-to-install system
- Dishwasher-washable filters
- Black glass finishing
- Max. Pressure: 357 Pa
- **Energy Class: A+++**

850 m³/h  
High Efficiency Motor

### LEGEND 900 XGBK ISLAND Cod. 02097202 EAN 8422248061681

- **Touch Control Panel** with timer and cleaning filters indicator
- 5 extraction levels, 4 + 1 **TURBO**
- Extraction power (according to UNE/EN 61591): **820m³/h** - 200m³/h
- Motor maximum airflow free outlet: **1200m³/h**
- **1st speed silent mode**
- **Sound power (Reg.(EU) n°65/2014): 40dB(A)**, maximum: 64dB(A)
- BRUSHLESS motor. Ultra silent. Maximum energy consumption **130W**
- **High efficiency LED lighting, adjustable intensity**
- Easy-to-install system
- Dishwasher-washable filters
- Finished Stainless steel and **mirror glass**
- Max. Pressure: 470 Pa
- 150/125 mm outlet diameter
- **Energy Class: A+**

#### Accessories (not included)

Active Charcoal Filter ..... Cod. 02859398 / EAN 8422248075497  
Check Valve ..... Cod. 02832004 / EAN 8422248480499

NEW

- **Touch Control Panel** with digital display, automatic shut-down timer and cleaning filters indicator
- 6 extraction levels, 5 + 1 **TURBO**
- Extraction power (according to UNE/EN 61591): **562m³/h** - 170m³/h
- Motor maximum airflow free outlet: 900m³/h
- **Sound power (Reg.(EU) n°65/2014): 44dB(A)**, maximum: 61dB(A)
- Brushless motor. Extra silent. Maximum energy consumption **95W**
- High efficiency Strip LED lighting, adjustable intensity
- Pneumatic opening
- **Front panel with opening for intensive use**
- Non-condensation filter
- Easy-to-install system
- Dishwasher-washable filters
- White glass finishing
- Max. Pressure: 470 Pa
- 150/125 mm outlet diameter
- **Energy Class: A+**

### Accessories (not included)

## INTEGRATIONHOODS

### TENTA 90 GWH

Cod. 02189005 EAN 8422248093729

- **Touch Control Panel** with digital display, automatic shut-down timer and cleaning filters indicator
- **AUTO connectivity with automatic control from the CATA hob**
- 6 extraction levels, 5 + 1 **TURBO**
- Extraction power (according to UNE/EN 61591): **765m³/h** - 245m³/h
- Motor maximum airflow free outlet: 1400 m³/h
- **Sound power (Reg.(EU) n°65/2014): 46dB(A)**, maximum: 63dB(A)
- **BRUSHLESS** motor. Ultra silent. Maximum energy consumption **135W**
- **High-efficiency lighting by intensity-adjustable two-tone warm / natural LED STRIP**
- Easy-to-install system
- Dishwasher-washable filters
- Glass visor furniture protection and **opening for intensive use**
- White glass finishing
- Max. Pressure: 357 Pa
- 150/125 mm outlet diameter
- **Energy Class: A+**

#### Accessories (not included)

Active charcoal filter..... Cod. 02859318 / EAN 8422248098472  
Check valve..... Cod. 02832008 / EAN 8422248086837

For furniture with boards from 16 to 19 mm and hulls from 310 to 350 mm deep

Front glass visor with opening for intensive use and furniture protection

Touch control with easy-access digital display

## GC DUAL Folding panel perimeter extraction

DUAL concept: Brings together the advantages of a flush-mounted unit and a conventional hood. It can work with the glass closed or open.

### Glass closed:

The hood is completely invisible from the front.

In this position, the perimeter suction effect occurs, reducing noise and promoting suction at the perimeters.

Greater visibility of the cooking plane.

The anti-grease filters are hidden.

Recommended position for gentle or medium cooking with 1 or 2 cooking zones and for long periods.

### Glass open:

Allows greater vision and use of the controls.

The suction coverage area is expanded to the front of the cooking hob.

Protection of the front of the kitchen unit from steam and smoke.

More direct suction.

Recommended position for intensive cooking or use of 3 or 4 cooking zones at the same time.

### Easy to install

CATA offers an exclusive, innovative system making the hood easier to install and allowing it to be fitted very easily, with great precision, by just one person. New, convenient, ergonomic anchoring system, offering an excellent end result.

 Check valve..... Cod. 02849003 / EAN 8422248044653

## INSERTS

**GK 4500 X**Cod. **02039306** EAN **8422248357135****GK 4500 WH**Cod. **02039007** EAN **8422248357142**

- **Slider Control Panel**
- 2 extraction levels
- Extraction power (according to UNE/EN 61591): **360m³/h** - 186m³/h
- Motor maximum airflow free outlet: **620m³/h**
- **Sound power (Reg.(EU) n°65/2014): 56dB(A)**, maximum: 67dB(A)
- Tangential motor. Extra silent. Maximum energy consumption **95W**
- **LED E-14 lighting**
- Easy-to-install system.
- Dishwasher-washable filters
- Finished in Stainless Steel or white
- Max pressure. 252 Pa
- 120 mm Outlet diameter
- Energy Class: B

**Accessories (not included)**

Active charcoal filter..... Cod. 02825263 / EAN 8422248006552  
 Check valve..... Cod. 02849003 / EAN 8422248044653

## TELESCOPIC

**TFH 6830 X**  
Cod. **02010601** EAN **8422248112741**

**TFH 6830 GWH**  
Cod. **02010101** EAN **8422248112758**

Cod. **02010404** EAN **8422248357364**

- **Touch Control Panel** with digital display, automatic shut-down timer and cleaning filters indicator
- 6 extraction levels, 5 + 1 **TURBO**
- Extraction power (according to UNE/EN 61591): **795m³/h** - 291m³/h
- Motor maximum airflow free outlet: **1200m³/h**
- **Sound power (Reg.(EU) n°65/2014): 46dB(A)**, maximum: 64dB(A)
- **BRUSHLESS** motor. Ultra silent. Maximum energy consumption **135W**
- **High efficiency Strip LED lighting adjustable intensity**
- Easy-to-clean inner panel
- Easy-to-install system
- Dishwasher-washable filters
- Finished in stainless steel / white glass / black glass
- Max. Pressure: 365 Pa
- 150/125 mm outlet diameter
- **Energy Class: A+++**

#### Accessories (not included)

Active charcoal filter ..... Cod. 02859318 / EAN 8422248098472  
Check valve ..... Cod. 02832004 / EAN 8422248480499

- **Touch Control Panel** with digital display, automatic shut-down timer and cleaning filters indicator
- 6 extraction levels, 5 + 1 **TURBO**
- Extraction power (according to UNE/EN 61591): **605m³/h** - 210m³/h
- Motor maximum airflow free outlet: **1000m³/h**
- **Sound power (Reg.(EU) n°65/2014): 47dB(A)**, maximum: 64dB(A)
- **BRUSHLESS** motor. Extra silent. Maximum energy consumption **90W**
- **High efficiency Strip LED lighting adjustable intensity**
- Easy-to-install system
- **Stainless steel base and panelLED filters washable in dishwasher** (TFH 6630 X)
- Finished in white / black / stainless steel
- Max. Pressure: 315 Pa
- 150/125 mm Outlet diameter
- **Energy Class: A+**

#### Accessories (not included)

Active charcoal filter ..... Cod. 02859394 / EAN 8422248038782  
Check valve ..... Cod. 02832004 / EAN 8422248480499

## INSTALLATION TFH

Compact drawer in 140mm height and depth 300mm adjustable up to **350mm** with accessory included

**Multiple installation possibilities in a single hood with Universal fixings for replacement.**

### Top shelf fixing

### Lateral Fixation

### Rear Fixation

No possibility of regulation in deep.

## CONTROL TC TFH6i

Touch control for telescopes with digital display.

### LIGHTING CONTROL

Adjusting the desired light intensity.

### RECIRCULATION

Active charcoal filter change warning.

### CLEAN FILTERS

Metal filter cleaning warning.

### MOTOR CONTROL

Precise adjustment of motor speed of 5 speeds + TURBO.

### TURBO

Direct TURBO activation by pressing and holding to eliminate excess smoke and odors immediately.

### TIMER

Turn off the light and engine progressively after a few minutes to ensure odor and smoke removal after cooking.

### AUTO ON

Extending the front panel activates the motor and light as per the last hood usage conditions.

### REPLACEABLE FRONT INSTALATON

### AUTO OFF

Closing the front panel starts the TIMER process and turns off the light and the motor progressively after a few minutes to ensure smoke and odor removal after cooking.
