**CATA ovens.
Reliability and Efficiency**

Optimal Cooking

Fastness to reach the selected temperature for baking.

Uniform distribution of temperature at all levels of the cavity for uniform cooking of food in all trays.

Pizza Stone accessory for a similar cooking to traditional wooden ovens.

Air fry tray

NEW

Join the healthy frying without oil and prepare delicious recipes such as chicken wings, vegetables and crispy fries.

Prepare your own favorite healthy snacks like dried fruit with the new air fry tray.

Easy cleaning

The entire cavity and trays are covered with high hardness glaze that avoids the inlay of dirt and facilitates cleaning.

The **internal glass** is easily **removable** without the need for tools for cleaning the door.

Aquasmart. The simplest system for a quick cleaning. It is based on the vaporization of water inside the cavity in order to soften the dirt and facilitate cleaning.

Pyrolysis. The most effective system based on increasing T° up to 450° that allows internal dirt to be charred and facilitates subsequent cleaning.

Removable Crystal

Capacity

Internal capacity of up to 72L, with 5 levels for trays / grilles.

MT 9011 PRO BK
MT 8012 BK
MT 8012 WH

Maximum useful surface in the tray 1550 cm².

Nueva Función
Air Fry

- 80% Menos de aceite
- XXL Formato familiar
- NI Precalentar, NI Agitar

Aquasmart

Complementary characteristics

Telescopic guides for easy and stable removal of the tray and grill.
Removable for changing levels.

Softclose. System that allows a soft and damp door closing.

Microwaves CATA

Speed and simplicity of use

All models have a Quick Start Button that allows us to start the microwave at maximum power for 30 seconds with just one click.

Each additional click on that button adds 30 seconds to the cooking so that we can perform most operations only with this function.

Easy cleaning

Internal cavity of high strength stainless steel and removable glass disc for easy cleaning.

Premium features

- Grill for gratin functions.
- Combined grill and microwave function menus.
- Thawing by time and weight.
- Possibility of rear fan for the most homogeneous cooking in model MC 32D.

Touchscreen 5"

It allows you to perform the basic cooking functions easily and intuitively and, at the same time, it gives access to extra cooking functions, recipes and tables for all types of foods.

Fast heating function, keep warm function, specific function for cooking pizza and function for low temperature cooking in a stable and accurate way.

Easy installation

-The microwave is set only with a single safety screw.

-MMA Models with reduced background and height adjustment allow optimal installation in high-end furniture with perfect integration and adjustment.

If your kitchen cupboards have a reduced depth, now you can easily update your kitchen with our new ovens and cookers. They offer the same performance features but are suitable for smaller furnishings. **CDP 780 AS, CM 760 AS, IB 5003, TT 5003, CCI 5003.**
