Healthy and sustainable *living with EGGER flooring.*

Our floors are a healthy and sustainable choice for your home. We do not use any plasticisers or PVC in our products. It is important for us that our statements about environmental protection and healthy living are transparent and have been verified. EGGER flooring has been awarded certified seals of approval from reputable institutes, such as the Blue Angel, which confirm its compatibility with a healthy living environment.

All our shown decors are reproductions.

Blue Angel

Awarded Germany's best-known environmental label

Blue Angel guarantees that our flooring is low in emissions and pollutants and poses no health risks. It stands for a responsible use of resources.

EU Ecolabel*

Demanding sustainability label from the European Commission

The EU Ecolabel provides good guidance for environmentally friendly products. Our products fulfill high environmental standards in raw material extraction, production, distribution and disposal.

*(*Only laminate flooring from the NatureSense, NatureSense Aqua and NatureSense Aqua+ product lines carry the EU Ecolabel)*

A+

Emission-tested product in accordance with the French assessment system

The emissions certificate provides information on compliance with limit values for formaldehyde and 10 other individual substances. With class A+, our products are particularly low in emissions.

M1

Emission classification for building materials

The Scandinavian test mark sets requirements for emissions of VOCs, formaldehyde, ammonia and other substances. Our products achieve the best category M1 = low emission.

Live NATURAL

Our fast-paced, technology-driven lives need a counterbalance. A haven of well-being: your home. In the natural interior design style, soothing green and natural nuances dominate, in combination with organic materials. Wood has honey tones. It can be rustic and knotty, or classic and elegant.

All our shown decors are reproductions.

Stay TIMELESS

Timeless designs effortlessly combine the old and the new. Neutral colour palettes, clean lines and high-quality materials form the basis for elegant living spaces. This is where both classic and modern styles feel at home. Classic materials such as marble and terrazzo dominate alongside elegant woodgrain decors.

Create VINTAGE

We bring back the past with vintage elements. Clear lines and bright colour accents modernise the beauty of vintage furniture and retro-inspired decors. The flooring sets the stage for a colourful show with its light decors or becomes part of the creative staging with its daring looks.

All our shown decors are reproductions.

Be SIMPLISTIC

Less is more. Clear lines with warm, earthy colours, such as delicate beige, soft grey and creamy white, create a minimalist aesthetic that embodies a sophisticated serenity. Floors are characterised by a new simplicity, with decors ranging from white to warm tones.

Interior MATCH

With our EGGER Interior Match range, we bring harmony to every room.

Klaus-Dieter Monhoff
Head of Design and Decor Management

All our shown decors are reproductions.

In sync with each other:

Flooring and furniture with the same look.

A popular interior design theme involves matching the designs of doors, furniture and flooring. Using matching colours and woodgrain patterns creates a coordinated look that enhances the overall aesthetic of the room.

Explore the *natural beauty of authentic surfaces.*

Whatever your taste, the wide range of EGGER flooring includes a stylish solution to suit your needs. Each flooring decor receives the perfect surface and gives your room an authentic character. The high quality surfaces of our boards prevent slipping and are comfortable to walk on.

Natural Valley Oak
EL2973

All our shown decors are reproductions.

How our flooring surfaces differ

Smoothtouch

This surface combines luxury and comfort. It has a fine structure and offers a very even, velvety surface.

Natural Pore

This synchronised pore surface realistically simulates solid wood, offering an authentic wood feel. Floors with this surface look and feel like real wood.

Omnipore

The Omnipore surface gives your floor the elegant look of oiled wood, impressing with its elegance and natural look and feel. With its irregular wood pores, it highlights the characteristics of different types of wood.

Mineral

The mineral surface creates an authentic stone, marble or slate look. Thanks to a certain roughness, it gives the flooring a natural appearance.

Deepskin

The Deepskin surface is characterised by a rustic texture. The predominantly linear surface alignment gives wood decors a striking appearance.

For design *with a format.*

With a harmonious floor decor and deliberately selected colour tone, you can give every room the desired atmosphere. In addition, the grain and texture of the decor soothes or livens up the appearance of the room. You can also achieve that little bit extra by choosing the right flooring board format. Large rooms are optimally accentuated by long, wide flooring boards, while small rooms appear larger with short, narrow flooring boards.

Classic

Suitable for any room thanks to its balanced proportions.

Large

Accentuates large spaces and brings out the best in country house decors.

Kingsize

These boards create drama in large rooms, in both the wood and tile decors.

Long

Ideal for large-scale room design and open living, e.g. with a living room kitchen. It also increases the effect of long, narrow rooms.

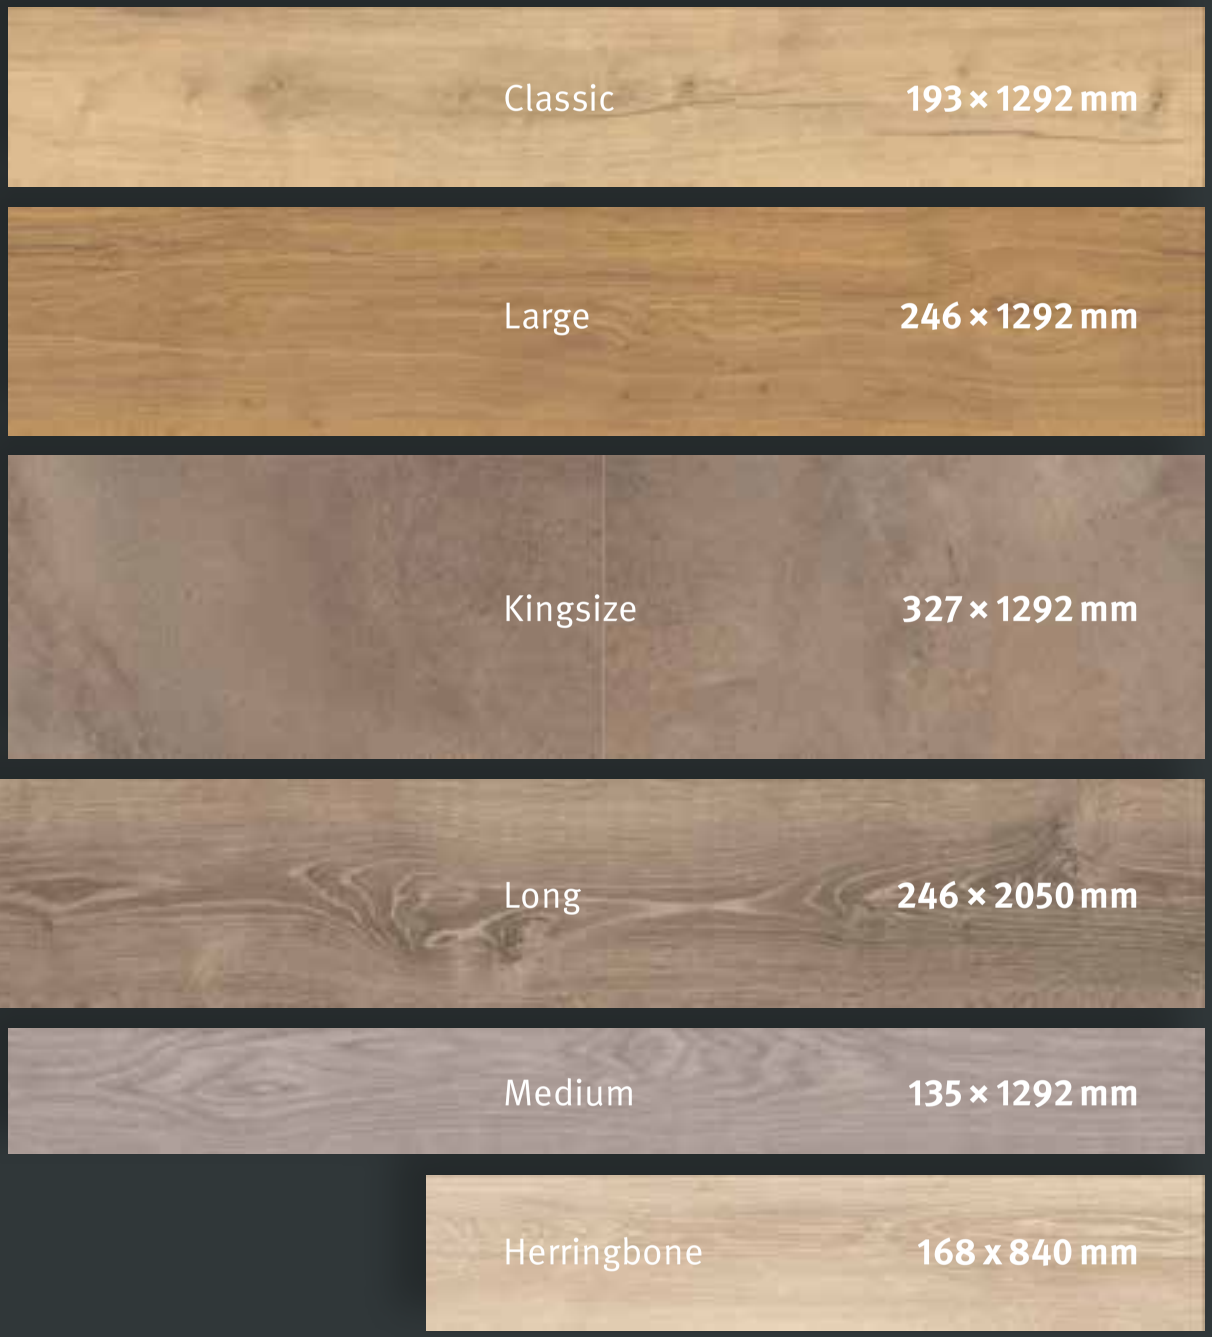

Medium

The ideal solution for small spaces.

Herringbone

The straightforward solution for an elegant parquet look.

Matched

from start to finish.

Of course, when installing a floor, the first thing that matters is the flooring itself. But you can only get the best results with the right accessories. Explore underlay mats, skirting boards, corner and connecting elements, and floor profiles that are perfectly matched to our flooring products.

All our shown decors are reproductions.

Skirtings

MDF skirting boards form an attractive transition between the flooring and the wall, protect against impact and conceal uneven areas. Our flexible, break-resistant and easy-care skirting is available in a range of colours and profiles. From discreet to stylish, our extensive range even includes matching corner and connecting elements.

» to.egger.link/skirtings

3 in 1 profile

Our aluminium profile skirtings for floating floors offer a 3-in-1 function. They cover transitions, even out uneven areas and serve as a finish. They are available in the same decor as the flooring skirting boards, creating a harmonious overall look.

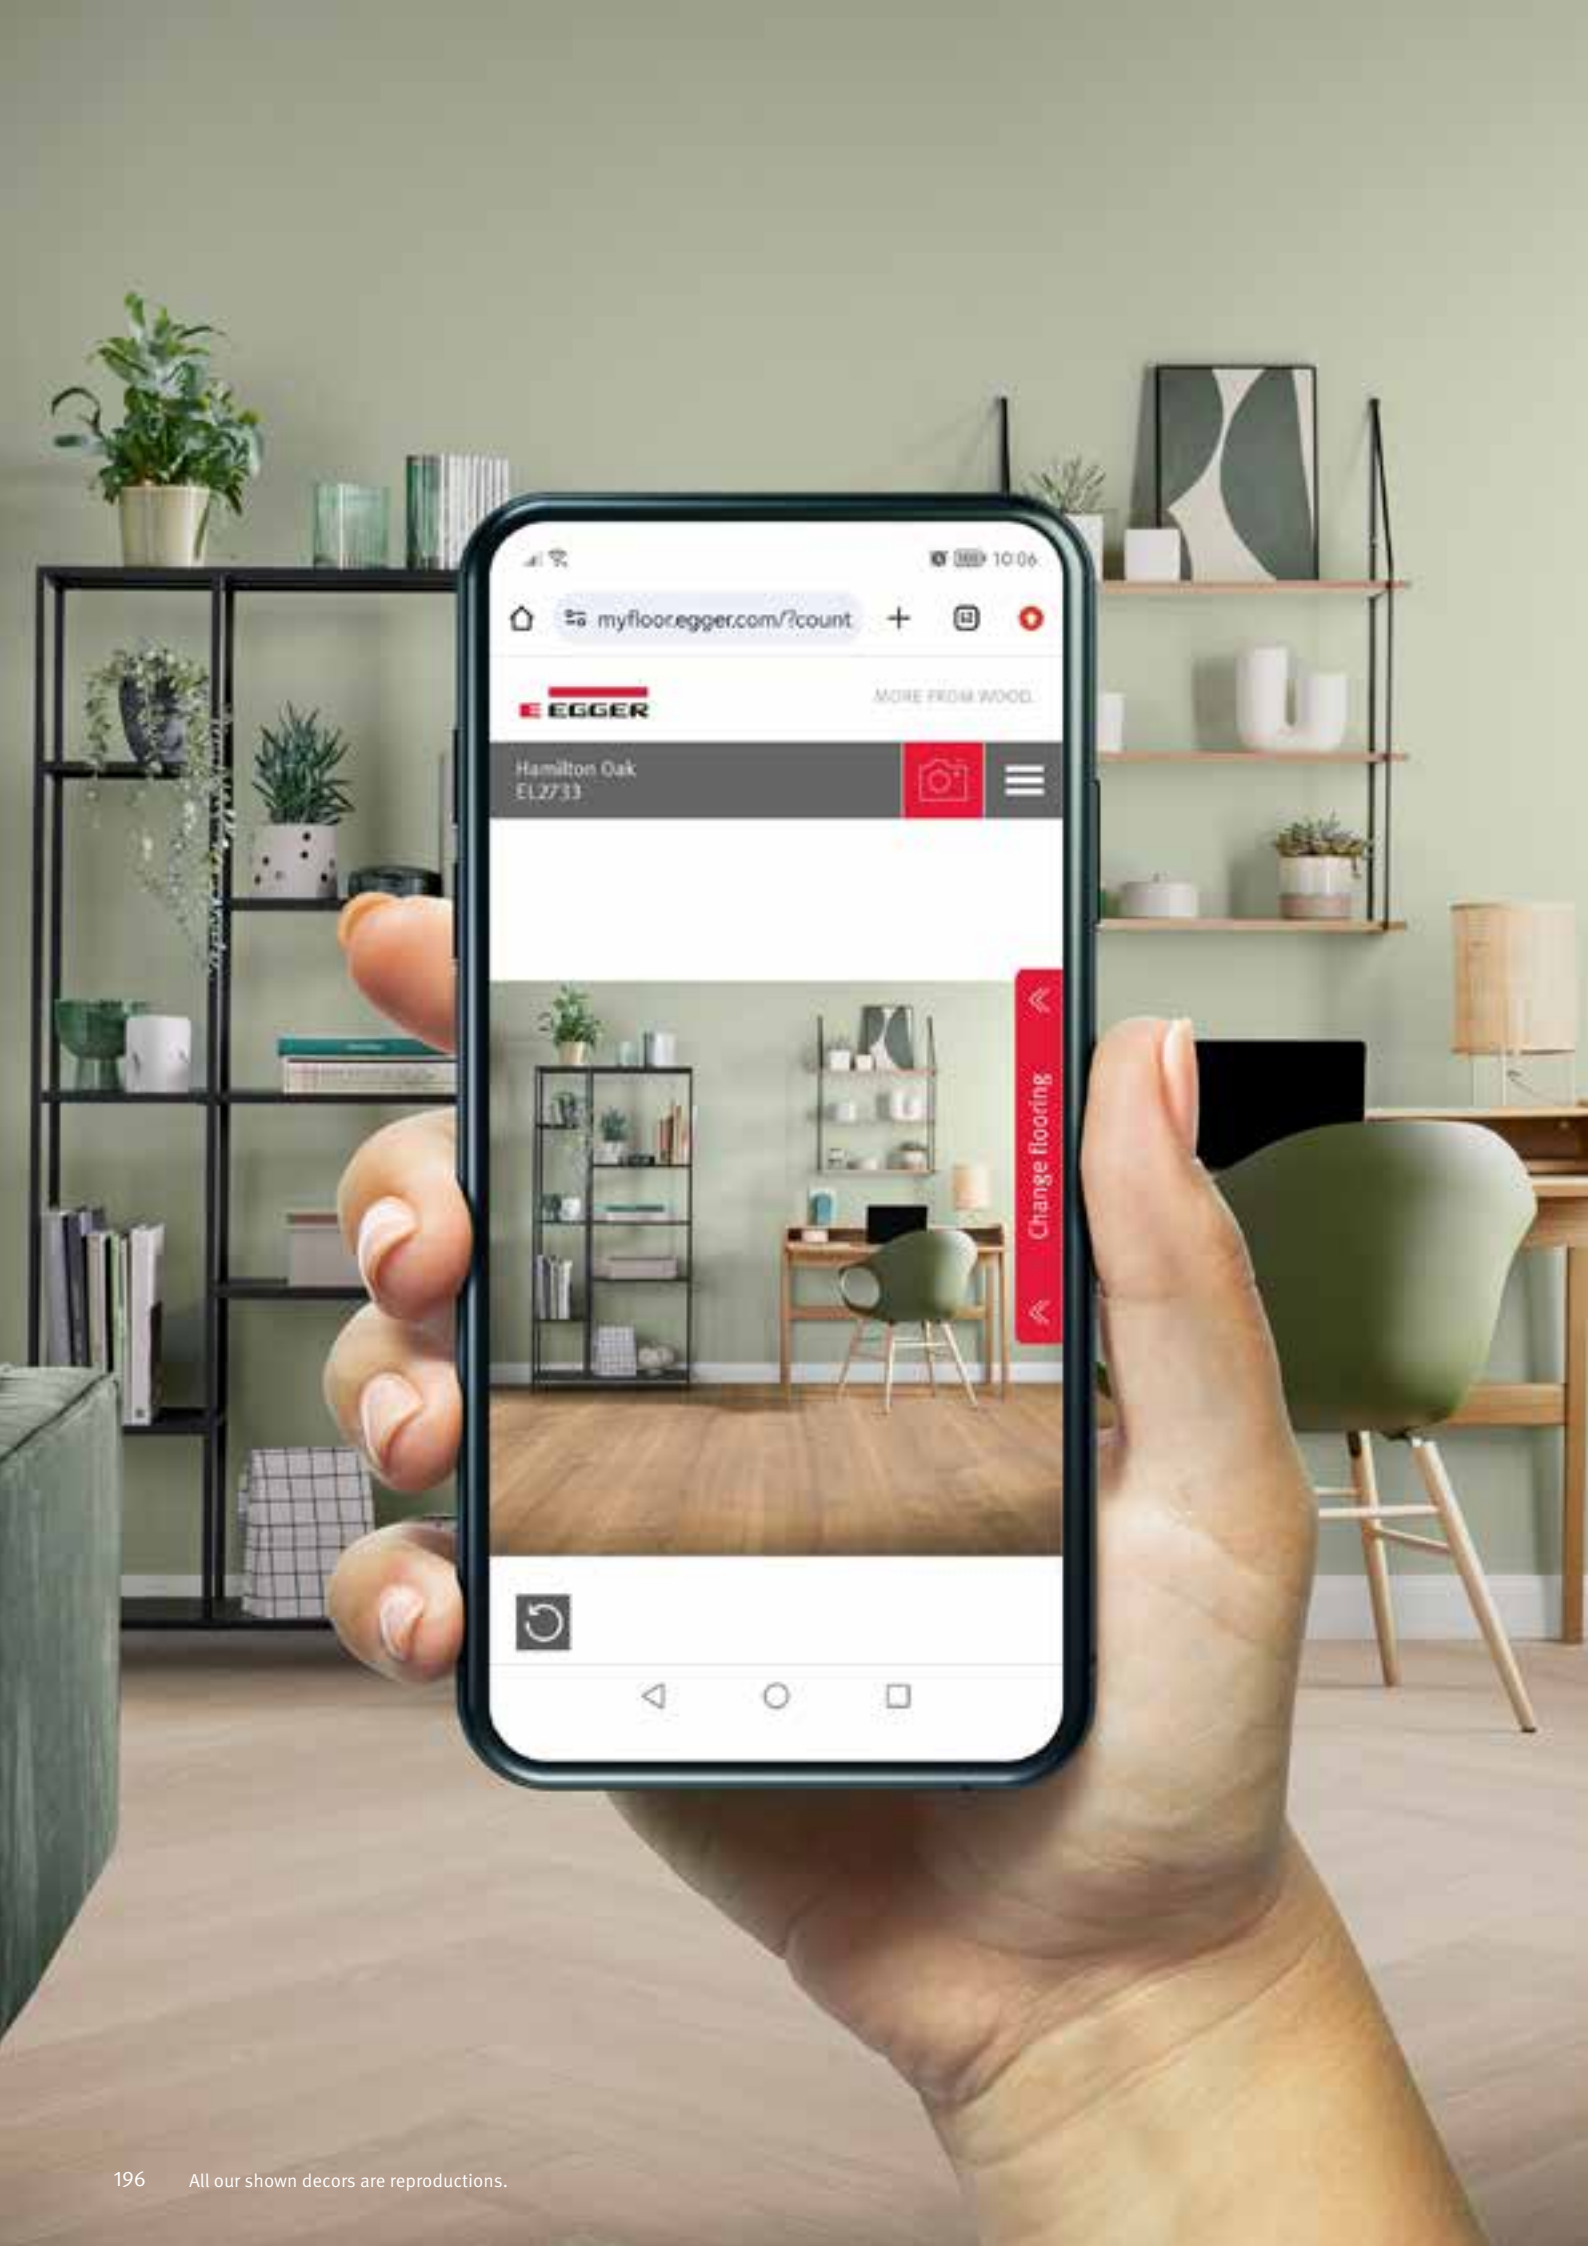

» to.egger.link/profiles

Underlay mats

A suitable underlay mat is essential for long-lasting enjoyment of your floor. It evens out any uneven areas, absorbs noise, insulates against moisture and protects the floor. It's also more pleasant to walk on and increases durability. The mat is available as a resilient polyurethane-mineral mixture or as a folding mat on an XPS basis, with or without a vapour barrier.

The wow effect with DecoWall panels:

The innovation for creative interior design ideas.

EGGER products can be found in many areas of private and public life. In addition to flooring, we also offer furniture and interior design products, as well as building products. Our EGGER DecoWall combines the best of both worlds, bringing together the stability and load-bearing capacity of a classic OSB board with a decorative surface. This combination creates instant wow effects – without the hassle of sanding, painting or wallpapering! EGGER wood panels offer an environmentally friendly alternative to conventional wall cladding that is natural, modern and easy to install.
